Conversation Prompts

- 1. How to make inter-university relations more equitable** - Are there mechanisms (or policies or practices) or resource-based discrepancies that discourage HBCU or MSI faculty and institutions from actively participating in PIT-UN? What can we do to address and redesign some of these mechanisms?
- 2. Translating PIT in North-South partnerships** - translating PIT concepts/methods/theories in partnerships with institutions and communities in the Global South. What are ways in which these translations (or failures to translate) can enrich our critical lenses in PIT-related work in the U.S?
